Dear Keith

Re Coopers' Coborn theatre refurbishment

On behalf of the School I'd like to thank you and South Essex Electrical Ltd for the excellent work you did for us in refurbishing our main theatre over summer 2015. It looks spectacular.

Having been given such a short notice period for agreeing the specification and to start the project, you and your team worked with both efficiency and professionalism. Not only was the work to a high standard, it was completed on time, on budget and with enhancements to the original design.

We thank you for your support and look forward to your continuing working relationship with the School on future projects.

Yours sincerely

Barry Ward
Director of Business and Operations
